

**DEATH OF MRS. A. W. FORCE.**

**Castoria is Dr. Samuel Pitcher's prescription for Infants and Children.** It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulence. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

**Castoria.**

"Castoria is an excellent medicine for children. Mothers have repeatedly told me its good effect upon their children."

Dr. G. C. Osborn,  
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kitcheloz,  
Conway, Ark.

**Atlanta Real Estate Exchange, 5 South Pryor Street, Atlanta, Ga.**

**AUCTION! AUCTION! IT MAKES NO DIFFERENCE how much unscrupulous real estate agents and shysters try to make Mr. Capper in Atlanta citizens to go three or four miles into the country to purchase property at city prices. The rich man will not go into isolated places and the ordinary citizen or poor man cannot afford to locate where he is obliged to spend one-eighth of his income traveling back and forth to his business. For the strictly first-class citizen, we will offer on Tuesday, the 27th instant, at 3 p. m., as auction, eleven of those beautiful shaded and elevated lots in Mayville, on North Calhoun St., two blocks east of the residences of Mr. James McPherson and Mr. C. E. Murphy. Mr. Capper, Mr. John Bain, Mr. Morgan, and others. Mr. Ed Peters, of the Peters Land Co., and ourselves are going to sell some of the most desirable land on Blokey avenue, and when the work is fully completed, this will be a more fashionable tract than any other in the city. Have the city for your summer trip, buy one or more of these lots, and they will double in value before your rational and sensible property can leave the city class lots on the market. There are no objectionable features.**

On Monday, May 29th, at 3 p. m., we will offer forty-one lots in Arlington Heights, fronting on Henry, Lee and Green's Ferry avenue, between Chestnut and Ashby streets. These lots are built one block from the broad street car-line, and they are positively the only lots convenient to the business and suburban properties on Clarksville. We have removed all the old buildings which were on this property, and we now have a large tract of beautiful land, and we invite the city either the home-seeker or investor to investigate. Remember the above dates, and be on hand to purchase.

Terms of sale: One-third cash; balance in six, twelve and eighteen months.

We will also sell the services of the well-known auctioneer, Dr. H. L. Wilson, to make the above sales.

J. H. MCINTOSH, Manager.

## Living Monuments.

Tombstones and statues crumble and decay, and even while they stand, their inscriptions fade from sight. Neither the storied nor the animated bust will keep a man's memory green forever. Unless a man's name is linked with great and good works it cannot be perpetuated.

The desire to be held in love and honor by succeeding generations is strongly felt by every man of noble aims and lofty aspirations. To this sentiment the world is indebted for many of the stateliest works of the architect and the most perfect art of the sculptor. But living monuments are worth more than all, and in every age the best and wisest lovers of their kind have endeavored to leave behind them a potential influence that will be felt in the working factors of religion, morality, education and civilization.

In no way has this praiseworthy ambition been more substantially and splendidly wrought out than in the shape of the endowments from time to time given to educational institutions. Many old English families have not a single representative now living, and their names would be forgotten but for the fact that they are forever identified with memorial buildings, libraries and chairs in the universities of Oxford and Cambridge. In the older states of the union such colleges as Harvard, Yale and Princeton were at first largely supported by the states, but in the course of time wealthy and liberal citizens endowed them with professorships, scholarships and other equipments supported by well-invested funds, until these institutions are now self-sustaining and the glory of their respective commonwealths.

Of late years southern educational institutions have made marked progress in this direction. The benefactions of Peabody and Appleton, George I. Seney's gifts to the Lucy Cobb institute and his hall at Macon, Senator Brown's princely donation to the Southern Baptist seminary, and the scholarship at the State university in the name of his son, Charles McDonald Brown, the large sums given by Mr. W. P. Tatillo to Emory college and by Colonel George W. Scott to the Presbyterian seminary at Decatur—all show that there is a growing disposition on the part of our well-to-do citizens to aid the cause of education in a generous and judicious way.

These colleges, seminaries, libraries and chairs, endowed by liberal and progressive men, are so many living monuments that will not only perpetuate good works, but will cause their benefactors and founders to be remembered and honored for countless generations after they have passed away.

There are doubtless scores of public-spirited Georgians who, when the matter is presented to them in this light and thoughtfully considered, will gladly embrace the opportunity of giving their names, their influence and their means to strengthen and advance our higher educational system. They have only to direct their attention to the efforts now being made by the Alumni of the State university to see where they may do a world of good, and build wisely and well for all time. Let these men come to the front and swell the ranks of the Seney, Peabody, Browns, Tatillos and Scotts. There is room for them, and they are needed.

## Forward the Elephant Fund.

A western exchange, which evidently knows nothing of elephants or Elephant funds, suggests that THE CONSTITUTION'S Elephant fund is getting on rather slowly. This may be the impression of thoughtless people at a distance, but the truth of the business is, the fund is getting on fast enough, for instance, to get the elephant.

It is a popular fund—everybody in town is in favor of it. There are not two opinions in regard to the necessity of getting an elephant to go at the head of the Gress menagerie, which is now so great an attraction at the park. An elephant at the park will not only be a source of great amusement and instruction of the children, but it will draw public attention to Atlanta's beautiful park. The town will live up to the elephant, so to speak, and perhaps the city fathers, who are so busy with less important matters, will come to the conclusion that the beautiful park needs something more of their attention than it has been receiving.

You will at once perceive that it is not only an elephant we are after, but to show by the popular nature of the subscription and the enthusiastic interest that has been developed that the people of Atlanta really take a pride in their park, which is bound to become more and more important as the city grows and extends. In other words, the elephant question has ramifications that are quite as interesting as the elephant itself. The Gress menagerie, the gift of a citizen whose public spirit takes a practical shape in all things, ought to be regarded as the beginning of a zoological collection that will rival those of other cities, and, with an elephant added—the result of the energy and enterprise of Atlanta's youngsters—the menagerie will be in fair working order.

It will be in order then for the municipality, backed by the liberality of individual citizens, to take a livelier interest in the park and in the growth and extension of its attractions. So much for this phase of the matter.

As for the fund itself, its growth is satisfactory. The youngsters seem to have a preference for the Sunday paper, and are filling out their lists with the view of turning them in Friday and Saturday. We have no objection to this, for the pictures of the boys and girls of Atlanta are in the nature of an embellishment to our pages; but those who are expecting to make reports for the Sunday Constitution should send them in on Friday, or, at the very latest, by Saturday noon. This will give all a fair chance.

Meanwhile, forward the Elephant fund!

## The Alleged Book Trust.

The action of the board of education in suspending consideration of certain "readers" was commendable.

While the adoption of the books was under debate, it was announced that the publishers had sold out to a "trust," the nature of which was not fully understood. Anxious to avoid a snarl with warring book agents, and to save the people from the heel of some combination, the board did well to await developments.

The combination of school-book publishers may, as is claimed, reduce the price of books, but the duty of the board is plain, and that is, to see that the people are fully protected against duplicity or extortion.

The people expect this much from their public servants, and THE CONSTITUTION will always occupy advanced ground in insisting on open methods and honest dealing.

## The Zouaves and the Rifles.

Both the Zouaves and the Rifles are going to Kansas City to represent Atlanta.

THE CONSTITUTION urged yesterday the propriety of raising a fund to send the Rifles, and we would have at the same time urged assistance for the Zouaves, were we not under the impression that the fund for their expenses had already been subscribed. We understand, however, that such is not the case, but that about \$600 of the amount needed has been pledged. This leaves about \$400 more to be raised, and the young men are actively at work for it. Of course the fund will be raised promptly, as it should be.

The Rifles have not yet begun to raise their fund, but will do so this week. They want about \$1,000, and the business men should deem it a pleasure to raise it for them. With the Rifles and the Zouaves, Atlanta's glory will be properly sustained in Kansas City, and their visit will be an event in every Atlantian will take pride.

So help the boys along.

## A Protest from the Teachers.

The Georgia school-teachers have a grievance, and with good reason they make complaint. At the recent Teachers' convention in Columbus, School Commissioner Roberts, of Burke county, introduced a resolution calling upon the next general assembly to enact a law which will guarantee to teachers the prompt payment of their salaries; and herein lies the cause of their complaint.

It seems that the teachers are not only poorly paid, but they are not paid at all—at least, not when they should be paid. They complain that the state compels them to wait from spring to winter for the money they have earned by their labors, and that, not being able to bide this length of time, they are obliged to patronize the note-shavers at a discount which they can ill afford to bear and to which they should not be compelled to submit. They state that the last legislature was appealed to for redress, but that nothing was done to remedy the evil by that body; so they have continued in the old rut—selling the state's promises to pay for whatever they would bring in order to relieve their present necessities.

They are worked up on the subject, and with reason; they are right in demanding prompt payment for their work, and the state is wrong in not giving it. The laborer is worthy of his hire; and who labors more faithfully than the school-teacher? They should not be humiliated by the necessity of hawking the state's due bills around the country with a bill of sale tacked to them, to become the property of Shylocks, who have more money than the teachers and can afford to wait six months or a year, when these notes, obtained at a handsome discount, will mature and enrich their treasuries.

The next legislature should inquire into this matter and give the relief asked. It is in sad contrast with the present financial condition of the state. Georgia is fully able to pay her teachers promptly, and there should be no cause for such a complaint as they make.

## Where Was He?

Editor Shepard, of the New York Mail and Express, frantically protests against the display of the conquered banner in the decorations at the unveiling of the Lee statue. He says:

"I am glad Ben Harrison wants a million of men to prevent the desecration of our sacred American soil by the proposed glorification of treason and the confederate flag on the 29th instant in Richmond, let him sound his bugle and he can have them."

Where was Editor Shepard in the lurid 'sixties, when the union bugles rilled the men in blue?

## Opposing the McKinley Bill.

The protest against the McKinley tariff bill among the republicans is growing in force and emphasis every day. In the business circles of the north and east republican opposition to the measure is taking definite shape, and is preparing to make itself felt in the senate in a way that will not be at all pleasing to those republicans who are anxious to rob the people in behalf of those who are willing to make large contributions to the campaign corruption fund.

Indeed, it may be said that Mr. Butterworth's trenchant exposure of the bill represented the views of a large number of republican business men. In New York the opposition to the McKinley bill among the republican business men is almost ferocious. A monster petition is to be presented to the senate, and this is to be followed up by a delegation composed of the most prominent republicans. Three hundred republican merchants are to go to Washington on a special train, and it is expected that they will be successful in their mission.

most imposing demonstration of the kind. In Boston there is great indignation among the business men. Even republicans who are protectionists denounce the McKinley bill as an outrage, and many of them declare that they will cease to vote with the party if the bill is passed.

It seems, indeed, that the republican politicians, who proposed to fry the manufacturers, are about to be fried by the republican business men of the north.

Mr. McKinley's conscience appears to be adulterated with India rubber.

Mr. Harrison's card about Quay has not yet been given to the press. It is evidently going to be a very elaborate affair.

CHICAGO wants to know how to get cash for the world's fair. The simplest plan would be to turn the whole scheme over to Quay and Dudley.

SOME of our republican contemporaries appear to be getting nervous about the political situation in Georgia. The humorist is evidently getting in his work in the heavy editorials.

BEN BUTLER has written a letter of advice to young men. He says, "Never do a mean thing for money." And yet Ben's success has been remarkable.

BISMARCK talks with the French papers of a character to get him into business with the headstrong young emperor.

WE hear nothing of the repeal of the tobacco tax in congress. It will thus be seen that many self-sacrificing Virginians and North Carolinians voted the republican ticket prematurely. They should immediately ask the Lord to forgive them, and then proceed to reform.

EDITOR HALSTEAD is discussing the charges against Quay from every point of view except the moral side. It is generally understood in republican circles that a thief is an honest man if he steals for the benefit of the party.

## EDITORIAL COMMENT.

SPREADING BISMARCK'S downfall, Editor Shepard says: "Iron is not the right material out of which to make a man." Perhaps not, but it is better than milk and water.

AN ELEVATOR is perfectly safe. There is no doubt about it. The elevators in New York and their friends make it perfectly plain from time to time that no accident can possibly happen. And yet in New York, the other day, an elevator fell six stories. Ten girls had just entered it when the cable snapped, and in an instant the elevator struck the bottom of the shaft. The girls were badly shaken up, but they escaped serious injury.

WHEN ex-Senator Jones, of Florida, was tried for insanity in Detroit he read a well-drawn petition for the release of the state from the federal court on the ground that he was a citizen of Florida. After the order was given to take him to the asylum Mr. Jones told the sheriff that he was making a fool of himself, but he would obey the court. To be sure, it is said that the unfortunate man is perfectly sane on every subject except his love affair with Miss Palmes. He will talk about that all day, and the lady and her friends cannot submit to the annoyance any longer.

ACCORDING to the Paris Figaro, Bismarck discussed the Emperor William in this fashion: "I like this young man. He is like a young hound that barks at everything, that ends by causing complete distraction in the room in which he is, no matter how large it may be. I think he is the victim of current history, which he might have curbed by a reign of tranquillity, sans eclat, in the beaten track and by allowing Germany to enjoy the advantages of peace. If one stone is moved all the other stones of the edifice will fall, and a degrading and degrading nothing can check. I am capable of neither astonishment nor scorn. These are the sentiments of youth."

## GLIMPSES OF GEORGIA LIFE.

Editor Gardener is making himself felt on the Sandersville Progress. The columns of that very interesting paper are showing up brightly under his pen.

The minister passed the hat around, while sang the editor free: "Amazing things, how sweet they sound—'Who's dead?' and 'Who's wrong?'"

Editor Huff, of the Wrightsville Headlight, is getting out a neat and new paper.

There is one editor in the state who is opposed to railroad building, but he has the reputation so bad that he can't stand the jolting of the cars.

"Will you renounce," the minister said, as the editor gave him his hand, "the world, the flesh and the devil?"

But the editor's face grew thoughtful. He said, "I am a printer's bill."

Editor Steadman, of the Lithonia New Era, was in the city yesterday. He was on a collecting tour, and left with his pockets and a cigar box full of silver dollars.

Larry Gantt is getting rich in Athens, but he deserves every dollar that rolls his way. He has since he came to Georgia, a poor young fellow, but he set to work with a will, and now he has not only climbed into national prominence as an editor, but if his real estate agency in Athens continues to pay as it is doing now, he will soon be one of the wealthiest citizens of Georgia. In the language of a hundred exchanges, "Larry is a hustler," and is bound to get there.

Hon. Gazaway Hartridge, editor of that bright paper, the Savannah Times, has made a new departure. Mr. Hartridge combines with his varied talents the fine faculty of humor, and it is announced that he will take the platform in the fall as one of Pond's trio of humorists, the other members of which are A. Minor Griswold and Bill Nye. This is a compliment to Mr. Hartridge, as Pond's lyceum contains such names as Lyman Abbott, Will Carleton, Joseph Howard, General Horatio C. King, George K. Howard, Max O'Rell, Dr. Talmage, Edmund Russell and others. Gazaway Hartridge is one of the brightest lecturers that we have, and can say more pleasant things in a minute than the rest of them can in a mile. This new arrangement will not interfere with his position as editor of the Savannah Times, however.

## POLITICAL POINTS.

A Wilson county correspondent of the Washington Chronicle contains names of John Q. Adams and Brantly M. Callaway for representatives.

—Marietta Journal: Politics in Cobb are surprisingly quiet. Nobody is an avowed candidate for any office. A long race costs too much money and too many hard shakings. It is well enough to make haste slowly.

—Adairville Ledger: As the time for electing representatives draws near we hear the people talking about who will be elected. There is quite a diversity of opinions as to who the second man will be, but with remarkable unanimity the people are solidly in favor of William L. LeConte. We have heard many speak on the subject, and all are decided on the above-named gentleman as one of the two men who will represent Barrow county in the next general assembly.

—Jonesboro News: One thing that is very plain to all our thinking people, and that should be studiously considered by the alliance, is embodied in this statement: Unless Clayton offers for representative of the thirty-fifth senatorial district, a man suitable and in every way qualified for the place will fail to furnish the senator. We must send up a man unanimously backed and endorsed by the people, and the only one who can do this is Clayton.

rotation system will be ignored and Clayton will take a back seat for some indefinite time. We cannot reasonably hope for success and be unmindful of these facts.

Clayton is justly entitled to the senatorship this time. Fenton, through his chief representative, THE CONSTITUTION, has admitted as much, and expresses his willingness to support a qualified man from Clayton, and if we lose our term it will be chargeable alone to our dissension and petty personal loyalty to our county should we be prompt as to lay aside every other motive and take hold, in deep earnest, of every prospect that holds out good to the county. We should not allow this honor to be removed from us when it seems so easily in reach. We have men that could wear it with becoming dignity, and would be of vast usefulness to the district. We have able men; men that the entire district would support, and in the interest of Clayton, and justice to worthy citizens, we ask that no rash or detrimental actions be adhered to, nor unwise resolutions formed. Let us send up a man that will be acceptable.

## ABOUT THE CAPITOL.

Governor Gordon issued an order yesterday suspending the sentence of John L. Conley until next Wednesday, the 26th.

Mr. Conley and his friends are very actively at work now, endeavoring to raise the amount of the fine.

It is understood that if the entire amount, \$6,000, is not ready at 10 o'clock on the 26th Mr. Conley will be sent to jail.

Copies of the advertisement for the lease of the W. and A. road were sent out yesterday—first to THE CONSTITUTION, one to the Augusta Chronicle, one to the Columbus Enquirer-Sun, and one to the Macon Telegraph.

It is to be published in only four papers in the state.

The board of trustees of the Confederate Home of Georgia met yesterday at the capitol.

There were present Judge W. L. Calhoun, General Phil Cook, Captain A. D. Ellis, Mr. S. M. Inman, and Hon. A. M. Fouts, of Barlow.

The report of the treasurer shows \$15,380.42 cash on hand.

Contracts already let for the buildings amount to \$12,061.50.

The contract calls for the completion of the building in July, but the work is being done carefully and cautiously, and it will probably not be ready for occupancy until the last of September or the first of October.

The buildings, when complete, will cost about \$25,000.

The grounds comprise about 119 acres, purchased at about \$80. The land is now worth over twice, and perhaps over three times, that amount.

Everything is progressing nicely. In a number of matters of detail about the building, the building committee was given power to act for the board.

The board adjourned to the third Thursday in June—the 19th. This will be a very important meeting, as rules are to be adopted governing the admission of applicants.

## ABOUT HOTEL CORRIDORS.

For several days now Colonel I. W. Avery has been kept busy acknowledging the greetings of Atlanta friends. Colonel Avery is very much improved in health, and his appearance gives every indication that that is the case. But he is still compelled to call crutches to his assistance in locomotion.

"The doctors tell me I will be lame for the rest of my life," he explained, "so you see these crutches are a part of me; but aside from that I am just as well as I ever was. When I consider my condition some months ago and now, I am so thankful for the great improvement that my lameness is forgotten."

The news that the veteran editor is himself again is good news indeed to his very many friends and admirers in Georgia, all of whom will heartily echo and endorse the sentiment, "May his days be many and all of them happy ones!"

Frank Small has been perpetrating a joke on a Washington Post man. At least this, from that paper, would seem to indicate as much: "Mr. Frank A. Small, looking like a Texas ranger, invaded the city yesterday. He was in excellent spirits, and in reply to a question as to where he had been and where he had come from, he said: 'I am from New York, and am going to Atlanta to attend a funeral.'"

"No one is going down to help beat my brother Sam. He wants to go to the legislature, and I believe he can make better headway in the pulpit."

"I am also going to start a paper, and of course its early demise is predicted by the people who know my style."

Atlanta has one citizen who collects and collates all the newspaper accounts of checks being altered and raised that he can find. That is Mr. George E. Hoppie.

Mr. Hoppie has been for some time in the north and west in the interest of his new system of bank stamp—a system by which raising a check is made absolutely impossible. He writes that he has met with the most gratifying encouragement, and that bankers and merchants everywhere pronounce it a great success.

Colonel A. M. Fouts, of Barlow county, was in the city yesterday.

"Will Dr. Felton be a candidate for reelection to the house?" he was asked.

"He is not a candidate, and I know of but one thing that would make him one. That is the failure to leave the state road. Should there be no lease, he might desire to come back for his heart in the satisfactory settlement of that matter. He thinks, however, that the road will be leased."

Another prominent Georgian in Atlanta yesterday was Dr. Huncutt, candidate for the position of commissioner of agriculture. He is a non-committal when politics are talked of, further than to say, in response to a direct question:

"My race is in just as good condition as I could wish. I have been confined to my home for some days on account of the severe illness of one of my children, but just before that, was through north Georgia. Everywhere I met with the very best encouragement, and I have every reason to feel all right."

Major E. B. Stahlman, of the Louisville and Nashville, came in yesterday, and occupies the familiar apartments at the Kimball. The major is hale and hearty—and, being at the Kimball, of course well fed—but he is as clam-like as ever when railroad matters are broached. The question of "lease or no lease" of the state road he carefully echoes, and when somebody mentions it he talks about the weather.

But when Major Stahlman comes everybody else talks about the lease, and just now the people who believe that there will be some sort of a joint lease by the Central and the Louisville and Nashville are by no means few.

THE COMMENCEMENT SEASON.

Harvard seminary, at Marietta, is getting ready for a brilliant commencement, which begins June 19th. Prof. J. S. Stewart is arranging an excellent programme and the occasion bids fair to be one of the most interesting ever held there.

lege, will preach the commencement sermon on the first Sunday in June, and W. S. Witham, of Anniston, will preach on junior day. The great reputation and splendid oratorical endowments of the orators will make this a memorable commencement.

The Middle Georgia Military and Agricultural college at Milledgeville, will hold the annual commencement exercises on Wednesday morning, July 11th. The programme is a varied and interesting one. The class of 1890 is composed as follows: Misses E. A. Young, E. W. Bass, A. E. McDaniel, Etta Brown, A. E. Campbell, A. L. Harper, C. Ennis, B. L. Moran, Cadets C. W. Moran, J. O. Wall, E. J. Smith, R. E. Skinner, E. L. Culver, A. L. Atwood.

## THE BOOK MEETING.

The board of education makes but few changes.

When the board of education was called to order yesterday evening, the call of the roll was interrupted by Col. R. J. Lowry abruptly demanding who it was that wanted to remove Maury's geography from the course of study.

When the roll was completed it disclosed the presence of the entire board, except Messrs. Brown, Grant, Glenn and Cassin.

The first breeze was on the new school question. The board has available \$13,000 for building purposes. It requires \$18,000 to complete one school.

Mr. Beattie moved that a contract be given out for one school, work to stop when the money gave out.

This was opposed by Captain English, who favored placing the want of funds upon the proper shoulders.

Elv proposals to erect the proposed school in north and south Atlanta developed the railroad line. An agreement was then reached by which the whole matter is to be submitted to a committee of five, to be appointed by the board, to see if an appropriation large enough to build both schools.

## THE BOOK REPORT.

The committee on text-books, through Chairman Hammond, recommended the following changes for grammar schools:

1. Drop "Science of Common Things" from course of study.

In its place, substitute History of England—Montgomery.

Mr. Moran opposed Montgomery's History of England because of expressions in it that were offensive to an important element of the people. If it became necessary, he had the book present, liberally marked, with which to fortify his assertion.

Thomson preferred a work on science to a work on history.

"The Science of Common Things" was retained.

The next two sections were then read by Chairman Hammond.

3. Drop primary geography in 4th grade.

4. Drop primary grammar in 5th and 6th grades and in 7th grade substitute Language Lessons and in 8th grade the grammars now taught in 7th and 8th grades.

These sections were negatived, with the exception that the study of grammar will begin in the sixth instead of the seventh grade, continuing through three instead of two years.

When Chairman Hammond read the following: Messrs. Hoke Smith, W. C. Williams, R. J. Lowry and D. A. Beattie held the floor at once. Some favored the change, others opposed it.

Mr. Harper's first and second readers to first and second grades in addition to Appleton's, now used; substitute Harper's third and fourth readers in third and fourth grades for Appleton's third and McGuffey's fourth, now used in those grades.

Mr. Smith moved to postpone consideration until the next meeting, while Mr. Moran wanted to put it off until next year, so that the trust could have time in which to arrange itself.

The matter was finally postponed until the next meeting.

Stickney's Language Lessons from the course was negatived, while No. 7, to use drawing blanks instead of Bartholomew's cards, was agreed to.

No. 8, to substitute the Eclectic geography for Maury's, developed the fact that Colonel Lowry is an orator as well as a lawyer. He spoke eloquently and effectively for Maury, and won the board over to his way of thinking.

The high school changes were the next taken up. The proposition to substitute Lockwood's Lessons for Hart's Rhetoric was rejected. Haven's Mental Philosophy was dropped.

Mr. John R. Gramling is in a critical condition.

Mr. John R. Gramling is dangerously ill at his residence, on Peachtree street.

He was stricken some days ago, but his condition was not considered dangerous until yesterday morning.

During the day he sank rapidly, and last night little hope of his recovery was entertained by his attending physicians.

At one time he was so low that it was thought he could not rally.

But after midnight a slight change for the better was noticeable. His pulse was better and he was resting well.

Early this morning Mr. Gramling's condition was still favorable, and hopes of his recovery are entertained.

Gramling is one of Atlanta's best known and most highly esteemed citizens, and his recovery is earnestly hoped for.

## THE ALLIANCE AND THE OLIVE BILL.

From the Athens, Ga., Ledger.

Sometime ago it was feared that the Farmers' Alliance would support a line of policy antagonistic to democracy and that there would be a split in the democratic party as to certain measures; or in other words that the alliance would vote for no candidates for office who refuse to pledge themselves to support the Olive and nut-tree bills. But fortunately all danger of discord in the democratic ranks from this source has vanished. There never was a more rapid change of opinion than that which has recently taken place in the alliance with regard to the Olive bill. Two months ago, that organization in Georgia was passing boycott resolutions against all candidates for reelection to office who declared themselves opposed to the bill, but now how different! The Olive bill is no longer an important factor in our state politics, because the farmers themselves are now in doubt as to whether short competing railroad lines should be maintained as such as long lines controlled by financially strong companies.

## GEORGIA NEWS.

—A military company called the Jeff Davis Cadets has been organized at LaGrange. About fifteen boys enrolled their names.

—Ordinary Hinton, of Meriwether county, has appointed Mr. E. B. Terrell, Jr., of Wilkes, as J. R. Winslow assessors for the land-owners on the disputed railroad right-of-way in that county.

—Dawson is steadily growing. A line of modern improved brick store-houses is now being built, and at an early date a cotton compress, two brick churches and new depots will add to the material prospects of the place.

—Terrell superior court will convene on the fourth Monday in this month. Cases in which Judge Guerry is not disqualified will be called the first two days of court. Judge Powers will probably preside during the trial of other cases.

—A heavy rain, hail and wind storm passed over the country about Starrville on Wednesday, which did considerable damage to the crops. Dur-

ing the storm, a male belonging to Mr. Loney Adams was killed by lightning.

## THE CLANS GATHER.

## THE REPUBLICAN STATE CENTRAL COMMITTEE IN SESSION.

Endorsing and Praising Buck-  
Favoring Negro Appointments—The  
Matter of Holding a Convention.

The republican central committee of Georgia was in secret session yesterday.

Matters of party organization were up for discussion, and plans for mapping out the coming campaign engaged the attention of Colonel Buck and his followers.

The meeting was a full one—nearly all of the delegates from every quarter of the state being present.

Promptly at 12 m. Colonel A. E. Buck, chairman of the committee, called the meeting to order, and the following members sat ready in their seats to weigh the matters of great importance that awaited solution at their hands:

MEMBERS OF THE COMMITTEE PRESENT.  
Attending: A. E. Buck, Atlanta; W. J. White, Augusta; James Atkins, Savannah; S. A. Darnell, Macon; Madison Davis, Athens; R. D. Locke, Macon; D. E. Lewis, Augusta; J. H. Deane, Savannah; R. B. Wright, Augusta; W. H. Johnson, Atlanta; O. T. Gonder, Atlanta; R. J. Henry, Atlanta; W. A. Fletcher, Atlanta; W. W. Brown, Macon; H. D. Ingersoll, Dahlonega; J. W. Marlow, Macon; A. W. Burnett, Atlanta.

First district—No delegates.  
Second district—L. L. Ligon, Albany.

Third district—E. H. Head, Americus; A. S. Bostley, Macon; R. H. H. Echols, Columbus; E. Long, Whitesburg; Abner Webb, Albany.

Fourth district—S. W. Bailey, Atlanta; W. E. Griffin, J. J. Martin, East Point.

Fifth district—P. O. Holt, Macon; R. M. Logan, Macon; George Wallace, Macon; J. W. May, Macon.

Sixth district—J. Q. Gassett, Cartersville; J. Egan, Marietta; J. Collins, Marietta; J. W. Brown, Marietta; William Bowers, Cartersville; Harrison Harris, Madison; John Head, Greensboro.

Seventh district—S. W. Copeland, Dahlonega; A. J. Spence, Cornelia.

Eighth district—Dr. A. E. Williams, Warrenton; J. W. Lynn, Augusta; Noah Johnson, Savannah.

The question of holding a state convention for the purpose of putting out a state ticket was the chief object of the meeting, and engaged the attention of the committee most all day.

Speech-making on this measure occupied the whole day, and resulted in the passage of a resolution favoring putting out a candidate for congress in every congressional district in the state.

The resolution also provided for the appointment of a committee by the state convention to hold the state ticket.

It was decided by the meeting that the convention shall be held in Atlanta whenever it is held, the date to be fixed by the committee.

This committee will also decide whether or not a state ticket will be put on the slate for the coming campaign.

HARMONY PREVAILED.  
In spite of the late rumors that a break was imminent between the negro republicans of Georgia, the meeting yesterday was a harmonious one, and no signs of explosion showed up.

Pinkerton, who was thought to be the leader against Buck and Pledge was there and joined in the meeting with sympathetic interest.

A resolution was passed unanimously endorsing Chairman Buck, and praising him for his obstinate stand against democratic abuse and vituperation. The resolution further pledged the hearty support of the committee to Colonel Buck in his policy.

CANDIDATES FOR CONGRESS.  
A resolution was passed favoring the nomination of congressional candidates in all the districts.

FAVORING NEGRO APPOINTMENTS.  
A resolution was passed by the meeting criticizing the course of such supervisors of the census department as have failed to appoint any black men as enumerators.

The meeting adjourned at 6 o'clock, after a busy and lengthy session.

THEY WERE EXONERATED.  
Sheriff Thomas, Jailer Poole and Bailiff Cook on Trial Yesterday.

Sheriff Thomas, Jailer Poole and Bailiff Cook were before Judge Marshall J. Clarke yesterday morning.

The object of the investigation was stated in yesterday's paper.

Judge Clarke objected to Tolleson being allowed so much liberty while being imprisoned for contempt of court, and he required the officials to appear before him to explain by what authority Tolleson was allowed such liberties.

The officers were on hand, but little time was required to show that none of them had any intention of attempting to make the orders of the court in regard to Tolleson.

Judge John L. Hopkins was present and stated that he had advised Tolleson on several occasions not to visit his office while he was out under the order of the court granting him (Tolleson) the privilege of visiting his physician, Dr. Hobbs. He further stated that he had never seen a man who was more strict in abiding by the letter of the instructions of the court than J. R. Tolleson. Judge Hopkins said that he had never seen a man who was more strict in abiding by the letter of the instructions of the court than J. R. Tolleson.

## UNIVERSITY MEN.

## THEY HAVE A LIVELY MEETING AT THE COUNTY COURT-HOUSE.

Enthusiastic Speeches Made—The Old College the Toast All 'Round—A Committee to Visit Athens.

The ball is started.  
The Atlanta Alumni society put it in motion at its meeting last night.

It was obvious from that meeting that Atlanta's university men are warmed with enthusiasm for the future welfare of the college, and will go to work with a hearty zest for anything that will advance its interests.

The meeting was called to order by Judge Howard Van Epps, president of the Atlanta Society of Alumni, promptly at 8 o'clock. A number of the university's graduates and warm friends attended the meeting, and it was characterized with the warm enthusiasm that prevailed.

AFTER CALLING THE MEETING TO ORDER, Judge Howard Van Epps, in a brief speech, spoke of the plans now about to enrich the university with a more becoming endowment than it now enjoys. He spoke of the plan that has been started to secure a number of alumni who were not able to make donations outright, to have their lives insured for \$1,000 on the ten-year plan for the university.

It would only take \$38 per annum from the pockets of such alumni as were willing to do this and would amount to only \$380 in the ten years. But the college would at that time have a paid policy of \$1,000. Judge Van Epps said that out of the large number of alumni it would be easy to get five hundred, at least, to enter this life insurance plan, which would give the university in ten years paid policies of \$500,000. This would place the university in a position where it could easily borrow from the state a quarter of a million dollars and this would, with the donations of the richer alumni, which he hoped would follow place the university in excellent circumstances. Judge Van Epps' speech was warmly with intense love for his alma mater and enthusiasm throughout, and showed that he has been carefully studying the college. He said he knew two men who had expressed themselves willing to give \$5,000 to the university, and another who would give \$1,000. He was applauded several times.

Judge W. I. Hammond spoke briefly about the plans of Judge Van Epps. He said he yielded to no one in his zeal for his alma mater and was there to do what the meeting thought best to promote the college. He concurred with Judge Van Epps, except in the plan to raise the fund. He thought it would be better for a canvass to be made, to see how many would pay a certain amount per year to a university fund rather than pay it to an insurance company.

Mr. Hooper Alexander also urged the hitting upon the best plan to secure the fund. He was ready to exert his best efforts for the university, and he would be found in line on any measure that would work to its advantage.

Colonel N. J. Hammond spoke after Mr. Alexander, and said he had come as a trustee of the college and as a graduate, to do what he could for its interest. He was hopeful of great reform in the pecuniary condition of the college, both from the direction of the state treasury and from private donations. He was ready to advance any plan that would advance the welfare of the college, and he was almost assured that the trustees of the college would, at their next meeting, do something to endow the university if they felt as he did over the matter. He was favorably impressed with Judge Van Epps' plans. Colonel Hammond's speech was enthusiastic and well received.

Speeches were also made by Messrs. Stallings, Walker and others, all of which were characterized by eloquent enthusiasm.

Colonel H. C. Hamilton moved that a committee of five be appointed by the president at his leisure, to visit Athens at the coming commencement, to confer with the trustees of the university, to look about endowing the university.

The motion passed, and Judge Howard Van Epps will appoint the committee within a few days.

LETTERS READ.  
During the meeting, the following letter from Mr. Clark Howell was read by the secretary:

ATLANTA, Ga., May 22, 1890.—Judge Howard Van Epps, City—My Dear Judge: As it will be impossible for me to attend the university meeting tonight, I write to let you know that I am in full sympathy with any movement that the university feels may inaugurate looking to the relief of their financial straits. I am glad that you have undertaken this work, in which I assure you that you shall have not only my earnest personal cooperation, but the assistance of the Constitution. Regretting that it is impossible for me to be present tonight, I am, very truly yours, CLARK HOWELL.

The following letter from Lieutenant Colonel Jones, of Cumming, Ga., was read, which was in line with the meeting in that it shows the absolute need of aid for the military department of the university:

CUMMING, Ga., May 22, 1890.—Judge Howard Van Epps, Atlanta, Ga.: My Dear Sir—I am glad to know that you have taken hold of the endowment scheme for the University of Georgia. I did not attend school at the university, but as a native Georgian, I feel as much interest in the University of Georgia as any of her alumni.

I wish I were able to give something toward the fund.

Several weeks ago, while on a tour of inspection, I spent a day in the city of Athens. While there, I witnessed the result of the university's financial straits. I saw the arms and accoutrements now in use by the students. The guns are a disgrace to the state. They are worthless, being old, worn-out muzzle-loading muskets.

In the event of a riot they would be of no service. They were used during the war, and are a quarter of a century behind the time. We want the best.

The military department has been re-established, and the university should have the latest guns and accoutrements.

I believe a little exertion among the alumni would properly equip this department.

I have been told that the university has a large number of alumni who are willing to give, but they are not being asked to do so. If we wait to secure them from this source, it may be ten years before we can get them for the university.

I would like to have your views on this subject. Truly and fraternally, WILLIAM F. JONES.

The meeting adjourned after an interesting session, subject to the president's call.

Another meeting will probably take place in the near future, before the Atlanta delegation leaves for Athens.

CAP JOYNER BACK.  
The Equipment All Purchased for the New Engine-House.

Cap Joyner is back from New York. It was a business trip. He went to order the equipment for the new engine-house. Most of this is to be made to order, and Cap visited the factories, where he could personally superintend the work and give instructions.

The most important purchases were a light truck, weighing about 300 pounds, and a hose wagon.

The light truck is designed for use in the outskirts, while the old one, which is much larger, is to be kept always in the business portion of the city where the buildings are higher.

The hose wagon is something new in its line. It is much more convenient than the ordinary hose reel. The hose can be taken out in much less time than it can be removed from a reel, and one man can do it. In addition to this its construction makes it 2,000 pounds lighter than the reel, and it is altogether a great improvement.

## UNDER THE GROUND.

## WILL THE TELEPHONE WIRES BE PLACED.

The Telephone People Have Considered the Question and It Is Thought They Have Decided Upon It.

The underground wires.  
The present year will see the good work begun.

That is so far as the telephone wires are concerned.

The work has been under consideration by the telephone company for some time, and it is now pretty certain that it will not be long before it takes a definite shape.

It is to be a part of other extensive improvements to be made for the accommodation of the Atlanta exchange. The spacious new building to be erected as a permanent home for the exchange at the corner of Forsyth and Poplar streets is referred to. As announced by The Constitution the lot for this building has already been bought.

Two hundred and fifty thousand dollars is understood to be the amount of money that will be spent by the telephone company in these improvements.

District Superintendent Cole was visited at his office yesterday and asked about the laying of the underground wires.

"We will spend more money in improvements in Atlanta this year than we will make in the next three years," said Mr. Cole.

"And the underground wires?"

"We have talked it over, and—well, we don't care to say anything about it just yet."

"But haven't you decided to do it?"

"We can't say. It wouldn't look just right to give our intentions out until we get authority from the city to do such a work."

Mr. Cole was very reticent about the matter, but it is pretty certain that the company has determined to put the wires underground.

"We will apply to the city council for permission to lay our wires underground in a short time," said Mr. Cole, "but we'd rather nothing was said about it until it is done."

It is a big job to put the telephone wires underground. Mr. Cole said it could not possibly be completed in less than two years—probably longer.

ROME'S ART EXHIBIT.  
What Shorter College Will Show at the Piedmont Exposition.

Superintendent Lyceet, of the art department of the exposition, has just returned from Rome and reports that the Shorter college will make a grand art display this fall, and he has reserved them ample space in the art hall.

Miss Annie Lester, the art teacher, is one of the most thorough of art teachers in the south, and the year just closing will show very nearly 500 pieces of work from a small row pencil drawing to a life-size Venus.

Some of the pieces show remarkable skill, especially the work of little Celeste Ayre, but thirteen years of age, and this is her first year of art. She is the daughter of ex-Mayor Ayre, and bids fair to be an original designer, as her geometrical designs and designs for programmes and favors are unusually skillful for so young an artist.

"Old Uncle and Mammy" in oil, by Beatrice Rice, are faithful copies of a fast-fading picture of the old south. Daisy Chaney, of Rome, will also show some fine specimens. Miss Sallie Carter, of Walnut Grove, makes a specialty of still-life crayons.

Mr. DeLoach, of Livingston, Ala., will also exhibit some of her oil painting. A fine screen was also being rapidly brought forward, the middle panel having an air figure on a branch with lute, flanked on either side with a gorgon trumpet-vine and the Marshal Niel rose.

This year will close one of the most successful of "Shorter," under the able management of Dr. G. Wallace, her president and assistant. We expect their display will be a feature at the exposition.

THE BOARD OF ALDERMEN.  
Convenes in Regular Session and Passing Up Considerable Work.

The board of aldermen convened in regular session yesterday in the mayor's office.

There were present Mayor Pro Tem, Hutchings, Mr. Howell, Mr. Hane, Mr. Middlebrooks, Mr. Woodward and Mr. Reinhardt.

The board concurred in the action of the council.

In removing earth from under the Fifth Baptist church.

In relieving G. N. Hurlst from paying for relaying Belgian black taken up for the purpose of laying a water pipe to his house.

In employing competent chemist to analyze the Chattahoochee river water, at a cost of \$100.

In paying Mrs. M. A. E. Smith \$100 damages, caused by change in grade on Plum street.

## BEAUTY AND MUSCLE.

## YOUNG LADIES OF THE PHYSICAL CULTURE NORMAL CLASS.

Give Practical Illustration of Their Ability Society. Events in Atlanta—Points About People You Know.

Pretty girls in gymnasium costume, disporting themselves on trapeze horizontal and parallel bars, and other gymnasium apparatus, and accomplishing feats which many of their big brothers could not hope to accomplish—this was the attraction which drew a very great many people to the State City Guard armory last night.

It was the commencement of the normal class of the school of physical culture.

The big armory was crowded.

Many people who knew nothing of the work went there out of curiosity; but none there were who came away doubting the efficiency of the school.

The exercises were all interesting. They began with Indian club exercises by the members of the normal class. Misses Ida Harding, Mary MaArthur, Emma Roberts, Isabel Roach, Adrienne Tison and Mattie Wheeler, who took the full course; and Misses Jennie Brownlee and Minnie Van Pelt, the partial course. In the Indian club exercise all were good, Miss Tison especially so. Miss Harding led the exercise.

Dr. Armstrong delivered the annual address, speaking at length on the great success of this system of physical culture.

The next exercise was the broad sword contest between Misses Tison and Wheeler, Harding and Roach. Then came exercises from the Swedish and Delsarte systems by the class.

Dr. F. O. Stockton delivered the diplomas, making an appropriate address. He told of what the last class had done, how the graduates had immediately secured positions and that we need no longer look to the north for teachers as any of these graduates are capable of teaching.

The heavy work indulged in by the members of the class was especially interesting. Miss Roach, Miss Tison, Miss Harding and Miss Wheeler were especially good in all kinds of gymnastic feats, but all of the class did well.

After the interesting dumb-bell exercise by the class, a reception was held. Everybody present was deeply interested in the entertainment and Miss Lindley was praised for the success of her work.

Misses Gussie Grady and Katie Stocking will leave next week for Athens to visit relatives and friends.

This evening the Browning club will hold a meeting at the residence of Major Livingstone Mims. The programme will be of the most delightful kind.

The meeting of the Ladies' Auxiliary of the Y. M. C. A. this afternoon is an important one and every member is urged to be at the parlors of the association by 3:30 o'clock. The "Japanese Wedding" will, if the members all take hold, be the most successful of any entertainment of its kind Atlanta has had.

Mrs. Dr. O'Brien, Miss Savage and Miss Ida Johnson conducted a most pleasant and entertaining ice-cream festival at Lloyd's hall, corner Alabama and Loyd streets, yesterday evening. A large number of people attended, and the festival was a fine success. It was gotten up for the benefit of the ladies help of the Church of the Immaculate Conception.

A novel entertainment will be given by the North Avenue mission tonight at the residence of Mr. W. H. Venable, on Peachtree street. Besides the programme of amusements already published, there will be an Arabian marriage in native costume and performed by a native. This will be a novel and most interesting feature of the evening's programme. Dr. Arbelly will be the Arabian priest to perform the ceremony.

The announcement cards are just out, telling of the union of Mrs. M. Jennie Porter and Mr. Benjamin S. Pardee.

The wedding occurred at Trinity church, West Twenty fifth street, New York city, April 24, 1890, but the cards announcing the wedding are not yet received by the many friends of Mr. and Mrs. Pardee.

Both parties are well known and highly esteemed in Atlanta, the bride being a daughter of Mrs. James Yarbrough, of this city. She has spent most of her life in Atlanta, and while here won scores of friends by her many excellences, who are cordial in their congratulations even now, a month after the nuptials.

Accompanying the announcement cards sent out by Mr. and Mrs. Pardee is the following unique explanatory card:

"We, the undersigned, in sending out the accompanying notification to our friends, beg leave to apologize for the long delay, by stating that our respective duties to the newspapers to which we owe allegiance have prevented us from taking the conventional 'wedding trip,' and also from taking time to address the within to our many friends."

Mr. and Mrs. Pardee will make their future home in Baltimore.

Yesterday afternoon, between 5 and 7 o'clock, Mrs. J. D. Patterson gave a delightful children's party to many of the friends of her five children, Mrs. Atlanta Clark, Ed and T. Mrs. Patterson's pretty cottage on Morris street was prettily decorated with Japanese banners, lanterns and fans, and jars of daisies. On the lawn in front of the house were a number of huge Japanese umbrellas, and the guests were seated at tables with appointments entirely in Japanese. The supper-room in the house, at which the smallest children were served, was also in Japanese and was very handsome. Each guest's place was marked by a dainty Japanese souvenir, puzzles and Japanese puzzles, and small umbrellas for the girls. The afternoon was spent in dancing, and the bright, graceful little figures made the scene one long to be remembered.

The little hostesses and hosts were beautifully dressed in the cunning styles which go so perfectly with baby faces, and did the honors of the occasion with much ease and grace. They were assisted in receiving by Mrs. William Speer, Mrs. John Silver, Mrs. Clara, Mrs. J. B. Roberts, Miss Annie Stewart and their mother, Mrs. Patterson.

Two small maidens attracted special attention, little Miss Eloise Brown in a Greenway gown of black silk, which brought out wonderfully her exquisite peach-blossom complexion and blonde coloring. The other, little Miss Florine Jones, was bewitching in a gown of baby blue, a charming color for the perfect little blonde, whose hair is of burnished gold in hue. The guests were:

## GEORGIA RAILROADS.

A LETTER FROM THE PRESIDENT OF THE FORT PAYNE AND EASTERN.

The Georgia Southern and Florida Extension-Sandersville and Colonel Mendenhall's Road.

Amongst the people of northwest Georgia there is a growing interest and confidence in the building of the Fort Payne and Eastern.

Recently, it will be remembered, there was a mass meeting held at Calhoun, Ga., in the interests of this road.

Col. W. R. Rankin, who was chairman of a committee then appointed to confer or correspond with the projectors of the road, sends THE CONSTITUTION a letter received from President J. W. Spaulding, of the Fort Payne and Eastern.

It will be read with general interest: FORT PAYNE, Ala., May 22.—Yours of the 19th instant duly received and read with interest. We have also read the newspaper accounts of your meeting at Calhoun, and have learned from Colonel Capers of the success of your meeting in point of numbers and enthusiasm.

We are in earnest, and as anxious for a railroad east as you can possibly be, and shall soon put on surveys to show us where the best line is, and after ascertaining that fact, and with the hope that it may pass through Calhoun, we shall then build the road. It is a possible thing the road shall be built from the Tennessee River to an Atlantic port.

We have no secrets about it that I am aware of. First, we want to find out by the survey if the line is feasible and can be built within a reasonable cost, and if it can, then we want to ascertain whether or not we can raise means to build it. Of course all of us interested along the line will have to put our shoulders to the wheel and our united strength ought to be sufficient to accomplish the end we all desire. Yours truly, J. W. SPALDING.

Sandersville Wants It.

Sandersville seems to be in earnest about the Middle Georgia and Atlantic. They are hard at work for it.

Only a few days ago a meeting was held of the committee appointed at a previous mass meeting, and active steps were taken. The following letter was addressed to Colonel Mendenhall:

Dear Sir: At a meeting of the citizens of Sandersville, held on the 12th instant, the undersigned were appointed a committee to confer with you in reference to bringing your projected road through this city, and to ascertain from you the conditions and terms upon which you will do so, and in what direction you propose to extend it from here. Please favor us with an immediate reply, so that we can do ourselves the honor of meeting you at such place as you may designate, or, if you prefer, that you meet our citizens and those of Linton in this city at such time as you may deem convenient, subsequent to which suitable action can be taken by our citizens to carry out your views.

McDonough to Doraville.

The Henry County Weekly says: "We are in receipt of a communication from Hon. W. G. Whidby, of Decatur, Ga., who states there is a movement on foot to build a DeKalb county road to extend the Georgia Midland from McDonough to Doraville, in DeKalb county. He states that Hon. W. L. Peek, of Rockdale, is interested in the scheme. The tone of his letter indicates that the project of this section means business. He forwarded a neat map showing the route proposed by said line, which is called the McDonough and Doraville railroad. This appears to us to be the most certain of the proposed extensions; though it is true talk is cheap and it takes money to build railroads."

The Georgia Southern and Florida. It is announced on the best of authority that the Georgia Southern and Florida Railway company, whose trunk line now extends from Macon, Ga., to Palatka, Fla., has purchased terminal facilities at St. Petersburg. The land and water front were bought from the Orange Belt Investment company in order to secure a line from Palatka to St. Petersburg, the Georgia Southern and Florida, it is said, has already bought, or will buy in the near future, all the rights and franchises of the Palatka and Lake Weir railway, and will extend it into Ocala—from Ocala to Silver Springs. The Ocala and Gulf railway has already been built, and in connection with the Palatka line, will form a great railway system in Florida, with a northern terminus in Macon, Ga. Should a line of steamships then be put on to run directly between Palatka and New York, after the deepening of the St. Johns river channel as far up as the former city, the whole would form a powerful combination which would control a large portion of the traffic of the state.

## A UNIQUE CIRCULAR.

Something Novel that the E. T. V. &amp; Co. Railroad is Sending Out.

General Passenger Agent B. W. Wrenn, of the East Tennessee, Virginia and Georgia railroad, is making himself famous all over the country from his excellent management of the passenger department of one of the greatest railroad systems in the world.

If Mr. Wrenn has a specialty, it is that of advertising in an attractive manner the advantages of his system. This brought him before the attention of the whole country when he had charge of the passenger department of the Western and Atlantic road, which, though only a little over a hundred miles in length, became, under his management, one of the most talked of roads of the country.

Mr. Wrenn's test circular is one of the most attractive ever issued, and is worthy of a place in any office or public resort. It represents the full system, with all its connections, in a neatly prepared map, surrounding which are pictures of the various industries and points of interest to be seen in the territory of this system. It is the work of Thomas Nast, the celebrated cartoonist.

The circular is well worth sending for, and will be supplied on application to either Mr. Wrenn, at Knoxville, or any of the agents of the road.

Mr. Wrenn has many friends in Atlanta, formed during his long residence here, who with his career with much interest and who are pleased to note the rapid stride which he has taken in the foremost rank of America's most noted railroad men.

## IS HE CRAZY?

BEN MEANS THE YOUNG MAN CHARGED WITH FORGERY.

His Attorney Says He Is Weak-Minded—His Father and W. T. Maynard to Come to Atlanta.

Is Ben Means crazy? His lawyer says he is, and his actions seem to bear out the assertion.

Means is the young man mentioned in yesterday's CONSTITUTION as being arrested Wednesday morning, charged with attempting to secure money on forged deeds.

Yesterday developed several new phases of the case.

One is the claim that he is of unsound mind, and another shows how he attempted to secure money from other loan agents.

Means remained in the station-house all day yesterday. In the evening he was removed from his cage to the chief's office, in charge of a special officer.

SAYS HE IS CRAZY.

Yesterday morning Mr. Azmon Murphy visited Means in his cell. Mr. Murphy was sent for by Means to act as his counsel.

Mr. Murphy has known the young man from his childhood, and was his school teacher for some time.

To a CONSTITUTION reporter Mr. Murphy stated that in his opinion Means was out of his mind beyond a doubt, that in conversation he did not know what he was talking about, and he believed him to be in a condition that was worthy of pity and sympathy.

During the day Mr. Murphy held a consultation with Dr. C. W. Stiles and Mr. Thomas Williamson, the gentlemen who came so near being victimized by Means in his rather peculiar loan negotiation.

To these gentlemen Means's condition was explained, and, considering this, it is probable that neither will take any step to aid in his punishment.

Means's attorney states that any losses they may have sustained will be made good.

WHO MEANS IS.

Ben A. Means is the son of one of the best citizens of Pike county, Mr. John Means.

He is brother of James M. Means, who represented Pike county in the last legislature, and who has held several other public offices of trust.

The Means family is one of the best of the state, and this makes the young man's predicament all the more unfortunate.

Yesterday morning Mr. Murphy, in response to telegrams to his client's family, received a letter from his father saying that he would reach Atlanta this morning.

Mr. Means stated in his letter that he would do all in his power to right any wrong his son had committed.

Mr. W. T. Maynard, of Forsyth, whose name young Maynard forged to the bogus deed, also telegraphed his agents in Atlanta that he would start for Atlanta yesterday afternoon or early this morning.

He read the particulars of the forgery in yesterday's CONSTITUTION, and at once communicated with Captain E. M. Roberts in whose hands his property was for sale.

Z. M. Maynard is his son. This circumstance complicates the case.

A BONA FIDE TRADE BROKEN INTO.

There is a rather unusual coincidence connected with Means and the forged deed.

Mr. W. T. Maynard has owned the lot on Hunter street for nearly twenty years. Until very recently it was never on the market for sale at all.

Captain E. M. Roberts put it on his sale list a short time ago.

Colonel George W. Adair had a customer for such a place, and so opened negotiations for the purchase of the Maynard lot.

Wednesday Judge Anderson began searching the titles, the terms of the contract having been agreed upon by Colonel Adair and Captain Roberts.

They knew nothing of Means's bogus deed filed Monday, until Judge Anderson ran upon it at the court-house.

At the time the trade was closed between Colonel Adair and Captain Roberts, Means was closing up negotiations for a loan on the same property.

The forged deed drawn by Means will probably seriously interfere with Colonel Adair's trade.

It casts a shadow on the title—that is, until the courts decide the deed is forged the property is not W. T. Maynard's in the eyes of the law, though it is in point of fact. It belongs to Z. M. Maynard, his son, the party to whom Means conveyed it (claiming himself to be that party) in his forged deed.

This makes it necessary for the courts to annul the forged deed before the property can be sold.

This procedure will be begun as soon as Mr. Maynard and his son can reach the city.

## BLOOD TAIN

SSS

No Return of Disease.

"I was troubled for years with a Blood Poison in its very worst form. I was treated by the very best physicians of Louisville, Ky., and Evansville, Ind., but they failed to benefit me in any way. A few bottles of Swift's Specific (S. S. S.) cured me sound and well. This was over four years ago, and there has been no return of the disease since, or any symptoms of it. I have recommended it to others for blood poison, and in every case they were permanently cured."

D. H. KARR, Mt. Vernon, Ill.

What a Leading Physician Says.

Dr. R. S. GORRISON, a leading physician of Mt. Carmel, Ill., writes the following under date of March 10, 1890:

"I cheerfully recommend Swift's Specific (S. S. S.) as a tonic and general health restorer, also in case of Blood Poison it always gives satisfaction."

Six bottles of SWIFT'S SPECIFIC (S. S. S.) cured me of a horrible attack of Boils that had broken out all over my body, and from which I could get no relief. I feel that if it was not for your great medicine I would have been an invalid. W. J. MITCHELL, Marion, Ala.

Boils All Over His Body.

SWIFT'S SPECIFIC relieves by forcing the poison out of the blood. No other remedy is equal to it for Blood Humors.

Mr. John O. Rogers, of Dana, Illinois, writes as follows under date of March 27, 1890: "My wife was for years an invalid from a blood trouble, and suffered terribly at times from Erysipelas. She tried many remedies advertised as blood purifiers, but received no benefit. A few bottles of Swift's Specific (S. S. S.) cured her Erysipelas and other blood troubles. From the first her appetite increased, and her general health improved in every way. She considers S. S. S. the best blood purifier and tonic she ever saw, and is willing for any one suffering as she was to be referred to her."

BLOOD HUMORS.

SSS

Both Ankles Crushed.

In a railroad smash-up in 1878, I had both ankles badly crushed. Soon after Blood Poison set in, and both legs, from my knees down, were covered with ulcerated sores, that refused all efforts to heal. I was virtually helpless for ten years, being bedridden most of the time. During all this time I was attended by the best physicians in this section of the state, and must have taken a cart-load of medicine, without receiving any relief of being benefited in any way. In 1887, I was induced to try Swift's Specific (S. S. S.) I commenced to improve from the first dose, and continued to get better until today I am as sound and well as any man in the universe. This was two years ago, and which I have had no return of sores or any pain in the legs. From my experience I conscientiously believe that Swift's Specific (S. S. S.) has no equal as a blood purifier, and I cheerfully recommend it to any one suffering from any disease of the blood.

**Sand SORES.**  
The work of the federal court is drawing to a close. The jury has been discharged, and the court is growing smaller each day. The work of the court yesterday was the disposal of the pension fraud case against John H. Holden. Holden pleaded guilty of the charges which held him for trial. A pension check from the post office at Elgin, Illinois, was found to have been cashed by Holden, and he was sentenced to pay the amount of the check, with three years' hard labor. The most outrageous feature of Holden's crime was the robbing of an aged woman, whose sickness and poverty carried her from earth only a short while after Holden had stolen the pension from her. The check was sent from Knoxville and was for \$35. The Circuit Court. Judge Pardee, of the circuit court, will arrive in the city today, and with Judge Newman will hold circuit court at 10 o'clock. The following calendar of cases has been set before them: Pullman's Palace-car company vs. William A. Wright, comptroller-general, and L. P. Thomas, sheriff. The plaintiff files a bill to enjoin the defendant from collecting a tax on sleeping cars run through the state of Georgia. John S. Wilson vs. The Standard Life and Accident Insurance company. Motion for a new trial. It appears that the plaintiff, Dr. Wilson, had an accident policy with the company when he had both legs cut off under a train at Whitehall crossing some years ago. The case was tried and a verdict directed by the court for the company. Dr. Wilson makes a motion for a new trial, and it will be argued today. John W. Harrison, vs. Henry Fink, receiver of the East Tennessee, Virginia and Georgia railroad; suit for personal injuries. The case has been tried and a verdict directed for the railroad. The plaintiff makes a motion for a new trial. There are three cases of like nature against railroads to be tried. Wylis S. Cooper and R. T. Allison have suits for damages against the Richmond and Danville railroad, and Jerry Lumpkin one against the Georgia Pacific. Each of the cases has been removed under the local prejudice act from the city court of Atlanta, and the issue is the demurrers to the petitions to remove the cases from the state court. A Seizure Returned. The seizure of the illicit distillery run by T. W. and D. L. Fain in White county was officially reported yesterday to the collector's office. The raid was made by Deputy Collectors Ware and Spence, near Nacoochee, in White county, and the distillery proved to be quite an extensive one. Messrs. T. W. and D. L. Fain, father and son, were both arrested for conducting the distillery, and seven fermenters, six hundred gallons of beer and two bushels of meal were seized by the deputy collectors. The men were tried night before last in Gainesville before Commissioner Gaston and gave bond. They are both very prominent men in White county, one of them having represented the county in the legislature. DISTRICT ALLIANCE MEETING. They Arrange for a Meeting of the District Assembly on the 23d. The thirty-fourth senatorial district Alliance assembly met in this city yesterday morning, at the office of the Southern Cultivator. Owing to detention, at McDonough, the Henry county delegates did not reach the city until noon. An adjournment was had to the department of agriculture, when the assembly was organized by the election of Hon. W. M. Combs, of Henry, as president, and W. G. Whidby, of DeKalb, secretary. It was resolved to hold a meeting of the thirty-fourth senatorial district assembly at Edgewood seminary, in DeKalb county, on the 23d of July next, to consider matters of mutual interest. On motion, the president appointed the following committees to report at the July meeting: Education and Legislation—W. G. Whidby, of DeKalb; Colonel C. T. Zachary, of Henry; N. B. Bates, of Gwinnett. Co-operative Measures and Manufacturing Enterprises—W. B. Henderson, of DeKalb; J. M. Johnson, of Henry; W. T. Nesbit, of Gwinnett. The meeting was harmonious and enthusiastic. A barbecue will be provided at the July meeting. My son is affected with weak lungs and has tried various treatments, but Bull's Sarsaparilla has done him more good than all other medicines. I cheerfully make this statement for the benefit of the afflicted.—John S. McGee, Horse Cave, Ky. Sam'l W. Goode & Co. Sell Today. 16 beautiful lots on Capitol View at 3 p. m. **THE CONLEY CASE.**  
Granted a Few Days' Grace by Governor Gordon.  
John L. Conley has been granted a few days' grace. In which to pay his fine. Yesterday morning Conley appeared in the sheriff's office at 10 o'clock, promptly, as was required, and delivered himself to the custody of that official. He appeared to feel confident that the end of the matter was not yet, and the sequel proved that he had reason for his confidence. Sheriff Thomas received a message from Governor Gordon to call at the executive department, and he responded promptly. This is a copy of the document that was presented to him on his arrival there: Whereas, John L. Conley, applies, through his attorneys, for a suspension of the execution of the sentence of the court in the case of the said John L. Conley to enable him to pay the fine imposed in said case. That the execution of the sentence in said case, and the fine is hereby suspended, until 12 o'clock on Wednesday, the 25th of May, and the sheriff of Fulton county will proceed to execute said sentence at that time, the said time is not paid. Witness my hand and the seal of the executive department at the capital, Atlanta, this 22d, 1890. JOHN B. GORDON, Governor. By order of the governor. W. H. HARRISON, Clerk Executive Department. Will Conley pay the fine? He may or he may not. His bond is one that may be safely relied upon. He has the means in his power to raise the \$5,000, the amount of the fine. But will he do so? That is the question. He is a shrewd lawyer and an old politician. Some of his republican friends have publicly expressed themselves in favor of his going to prison and risking the chances of a pardon rather than pay the fine, which they are pleased to say is exorbitant and imposed for political reasons. While this is not a fact, as the laws of the state leave the court no discretion in the matter, except the imposition of a fine double the amount of the surety, still the case may be taken advantage of as political capital. Conley has not expressed his intentions in the matter, and so far as can be guessed at the present status of the case, Conley intends to pay the fine and end the matter at once and forever.

**THE THIRD BAPTIST PICNIC.**  
A Delightful Ride in the Country—Picnicking at Brown Park, Marietta, Ga. The Third Baptist Sunday-school will give their regular annual picnic at Brown Park, Marietta, Ga., Saturday, the 24th. This park is one of the most beautiful places in the south, and is an ideal location for picnic grounds. Large springs, with abundant shade and plenty of the luxuries of life, will assure all who attend it a pleasant time. The train will leave the union passenger depot promptly at 7:30, returning at about 6 o'clock. Tickets for the round trip to Marietta are only 50 cents. Children half fare. This will be a delightful excursion for the Sunday-school children of this church. An outing at this time of the year has a very valuable and beneficial influence on the little ones.

**16 Capitol View Lots Today.** Dummy leaves Capitol View and Alabama streets at 2:30 sharp. Sam'l W. Goode & Co. "Picked Up a Bargain." Somebody will be able to appropriate the language of this caption at the close of Krouse & Welch's Georgia avenue sale on Tuesday, the 27th. It may be you.

**A Fine Capitol View.** Those elevated lots on Georgia avenue afford a splendid view of the capital, and are within a few minutes of business center of the city by the excellent service of the dummy car. Attend auction Tuesday, May 27th. Krouse & Welch.

**How to Buy Cigars.** It is more profitable for a retailer in cigars to buy from the manufacturer than from the jobber. This is a vital question for every retailer to consider. We have saved our customers the jobber's profit for the last six years. This accounts partly for the steady increase in the demand for our line Havana cigars which equal in taste, flavor and Spanish workmanship the best imported from Cuba, and they give entire satisfaction to Atlanta's prominent men have been our steady customers ever since we established our factory. We sell to the retail trade at wholesale prices in quantities of one box and upward. We guarantee our goods and ship them to any place in the country. And we are willing at any time to take the goods back and refund the money if they do not turn out to be as we represent them. The buyer runs, therefore, no risk at all. There are many smokers who pay high prices for cigars which do not satisfy their taste. Let them call at our factory and get their money's worth, or write to A. L. CURET, No. 2 Edgewood Avenue, Atlanta, Ga. su-tufri

**A WEIGHTY MATTER.**

It's a right serious matter with a great many people—buying a suit of clothes. You naturally wish to know where you will get the best value for your money. Well, let me tell you something: I don't advertise bargains; don't sell goods at manufacturers' prices; don't sell goods at cost (except hard stock). These things catch a few people, but the absurdity of all such claims carry their own refutation. What I wish to remark is this, that, according to sworn statements, I DO carry twice the stock of any clothing house in Atlanta. You will find any price suit you wish, and the prices are guaranteed low as the lowest. GEORGE MUSE, Clothier, 38 Whitehall St.

## Are You Sick?

A great many human ailments, of whatever nature—whether of the head, heart, nerves, mind or otherwise—are reflex from some probably obscure kidney trouble. In all cases where the kidneys fail to perform their proper function, poisonous matter is not eliminated from the blood, but left coursing through the system, undermining health, producing disease, and, alas, leads to death.

## Stuart's Gin and Buchu

Is a safe, reliable and searching remedy for every form of kidney, bladder, and all other urinary troubles of whatsoever nature. Perhaps you don't believe this statement. Well, we can't make you. And if we could, we would not force you to take Stuart's Gin and Buchu against your will. Now would we like to deal with fairy tales. But we simply appeal to your judgment that Stuart's Gin and Buchu will cure all kidney, bladder and other urinary troubles. If you will give it a trial you will soon be convinced that we speak truth.

After a thorough trial of Stuart's Gin and Buchu I unhesitatingly endorse it as a remedy for kidney and bladder troubles, and I believe that the most complicated cases of these diseases can be promptly and quickly cured by its use, if the directions are strictly followed.

## FOR SALE.

15 unimproved lots on Peachtree and Juniper sts, between 7th and 8th streets, for sale at auction, day of sale will be announced as soon as plots can be had. The owner of this valuable property, Mr. W. W. Austell, at the instance of friends, has finally consented to allow us to sub-divide this block in such a manner as to bring the lots within reach of a great many who do not want a large lot, and he furthermore makes his terms and rate of interest so reasonable, viz: 1/4 cash, balance 1 1/2 and 3 years on or before at 7 per cent interest per annum. We cannot see how anyone in need of or who desires a home in the very best neighborhood in this city can resist the temptation to be a bidder at this sale. Keep your eye on the date of the sale and we will see that you are furnished with a neat plan giving all the information necessary to induce you to buy.

## THE TWIN REPUBLICS.

THE TWO PRESIDENTS AND EX-PRESIDENT CLEVELAND.

With Many Other Distinguished Visitors, Invited to Be the Guests of the Exposition Company—Committee Meeting.

Many distinguished people are to be invited to visit Atlanta during the exposition as the guests of the Exposition company.

The committee on invitation made up a partial list yesterday afternoon.

The members of the committee met at the exposition offices at five o'clock and determined upon some of the invited guests. The list now made up includes:

President and Mrs. Harrison.  
Ex-President and Mrs. Cleveland.  
President and Mrs. Diaz, of the Republic of Mexico.

Secretary of State Blaine and Mrs. Blaine.  
Secretary of Agriculture Rush and Mrs. Rush.

Governor and Mrs. Campbell, of Ohio.  
Senator Carlisle, of Kentucky, and Mrs. Carlisle.

Hon. L. L. Polk, president of the National Farmers' Alliance and Labor Union.  
Colonel L. F. Livingston, president of the State Farmers' Alliance.

Other prominent gentlemen will be invited, but the committee was unable to complete the list yesterday. Mayor Glenn, chairman of the committee of entertainment and invitations, undertook to correspond with the distinguished gentlemen named before sending out a special committee for formal invitation.

Just what a great thing it would be for the exposition to get all these distinguished people here can scarcely be realized.

But will they come?

Many of them will. President Harrison has long been anxious to visit the south—Russell Harrison is authority for that statement. When Mr. Harrison was here some months ago, he made the statement that he knew his father would come if it were possible for him to do so.

As for Mr. Cleveland, he has been invited to visit Texas at about this time, and he is anxious to go. If he is able to do so, he will doubtless accept the Atlanta invitation.

President Diaz's presence is assured, if President Harrison comes. That is positive. Mr. Blaine would be given a welcome in the south, probably second only to that accorded Mr. Cleveland. Everybody wants to see Jim Blaine.

Mr. Rush would be especially welcomed by the farmers.

Senator Carlisle and Governor Campbell, those two staunch democrats, can always be assured of a warm place in the hearts of the people of the south, and the people of Georgia would turn out in great numbers to greet them.

Colonel Polk and Colonel Livingston will get the same great reception the alliance gave them last year—a splendid one indeed.

Everything points to a great exposition. Even without these distinguished guests it will be great—with them the greatest yet.

## Decay, the Universal Law.

Let anything in nature become lifeless and inactive, and decay follows as a usual sequence. Decay is the universal law. Can you wonder when a person feels constantly worn out and more that half dead that decay of the lungs or kidneys sets in. They say that decay of the kidneys (consumption) and decay of the kidneys (Bright's disease) are incurable. Who says so? Only those experimental doctors who have failed. Don't despair. While there's life, there's hope! In checking decay of the lungs or kidneys, in preventing further ulceration, it is essential that all blood impurities should be removed, and an alternative influence exerted upon the whole system. The appetite and digestion must both be improved. The nervous system soothed, and sleep, nature's sweetest restorer, invited and encouraged. Energy must be aroused and mental depression banished. In this momentous rallying effort Dr. John Bull's Sarsaparilla is an essential ally to nature. Use this remedy. It has restored many to health and strength, even after doctors had given up all hope.

## YOUR OWN LIFE.

May Be Saved if You Will Think of Yourself a Moment and Then Act.

Ulceration of the bowels, usually called "itching piles," is a very common affliction and causing much pain is usually considered of small importance, and the disease is allowed to develop into a very grave affliction. The system and the bowels are moist and itching around the anus, pain across the hips (low down), diarrhoea, and irregular bowels, pain in lower part of same, indigestion, and a long train of nervous symptoms, differing in nearly every case; and in the female, who are more liable to be affected than the male, many symptoms usually attributed to female diseases. This disease is a very fruitful cause of many diseases refusing to yield to the treatment of your physician, and places you on the list of "incurables." The results of neglecting this affliction are terrible to contemplate. A general impairment of health, frequently so slow as to be scarcely noticeable, derangement of the nervous system, undisturbed by business or enjoyment of pleasure, the development of cancer and stricture of bowels, or loss of power of controlling same when happily disposed, and the relief of the sufferer of hemorrhoids. This is a terrible picture, but a true one. You may neglect make this your own; can you take the risk when a cure is offered you? Treating rectal diseases exclusively for years, I have found many to offer you a cure without the usual pain attending the treatment employed by one who has not the experience in treating these diseases. I am of the opinion that I can furnish you with my success if you wish it. I can furnish you with more if you prefer it. On my part success I am willing to stand or fall. Can I offer you anything fairer? If you wish to investigate what I have said, I extend to you an invitation to consult me, (free of cost), and I will prove all I have said to the satisfaction of the most skeptical. ## DEMANDS

That only honest and reliable medicines should be placed upon the market. It cannot, therefore, be stated too emphatically, nor repeated too often, that all who are in need of a genuine Blood-purifier should be sure and ask for

## Ayer's

Sarsaparilla. Your life, or that of some one near and dear to you, may depend on the use of this well-approved remedy in preference to any other preparation of similar name. It is compounded of Honduras sarsaparilla (the variety most rich in curative properties), sassafras, mandrake, yellow dock, and the iodides. The process of manufacture is original, skillful, scrupulously clean, and such as to secure the very best medicinal qualities of each ingredient. The medicine is not boiled nor heated, and is, therefore, not a decoction; but it is a compound extract, obtained by a method exclusively our own, of the best and most powerful alteratives, tonics, and diuretics known to pharmacy. For the last forty years, Ayer's

## Sarsaparilla

has been the standard blood-purifier of the world—no other approaching it in popular confidence or universal demand. Its formula is approved by the leading physicians and druggists. Being pure and highly concentrated, it is the most economical of any possible blood medicine. Every purchaser of Sarsaparilla should insist upon having this preparation and see that each bottle bears the well-known name of

J. C. Ayer & Co.,  
Lowell, Mass.

In every quarter of the globe Ayer's Sarsaparilla is proved to be the best remedy for all diseases of the blood. Lowell druggists unite in testifying to the superior excellence of this medicine and to its great popularity in the city of its manufacture.

## Opelika Mineral Water.

This water, discovered several months ago, is one of the finest waters ever offered to the public. It is found upon careful analysis to contain curative properties that are simply marvelous. It is a sure cure for indigestion, impure blood, and all kindred diseases. It does not cleanse the system, cure-all, but we know that for indigestion, dyspepsia, and for all blood troubles, it has no equal.

From Hon. W. J. Samford, ex-Member of Congress.

Opelika, Ala., January 27, 1890.—Mr. Louis Cherry: Dear Sir: My daughter for three months suffered with constant sick headache and general debility. We tried much medicine with no permanent relief. We tried the water from your mineral well. After using it three or four days her improvement was very marked, and at the end of two or three weeks her restoration was complete. I do not hesitate to recommend it to the sick, as I know of many cases where it has effected wonderful cures. If this voluntary testimonial (which is unsolicited by you) can be used to induce the sick to try these waters, you may so use it. Yours truly,  
W. J. SAMFORD.

From Judge J. J. Abercrombie.

Opelika, January, 1890.—Louis Cherry, Esq.: Health is essential to happiness and happiness is the prime object of life. I have found nothing in all the realm of nature that has contributed so much to my health as the use of your Opelika mineral water. The use of it has enabled me to eat anything at any time with impunity. What more can be said of anything than that as a means of restoring health? Before using it I could eat nothing without due regard to quantity and quality; after using it I have eaten immoderately of them and other things for supper, and slept profoundly through the entire night. J. J. ABERCROMBIE.

This water will be put F. O. B. cars here on receipt of following orders: 40 per cent. Smaller quantity, 20c per gallon net. It keeps well, as experience and long shipments have proven. For further information, write to your local shipper.

SHADED LOTS,

FRONTING McPHERSON PARK.

PULTON COUNTY CANNOT BOAST OF A more level and beautiful spot than this one. The wide-spreading, natural growth upon this property is simply enchanting. The Confederate army lines run by these lots every 30 minutes. McPherston Park is immediately in front, affording you forever the most choice and desirable neighbors. The water and scenery are unsurpassed in this portion of Georgia. Think of a home on a big lot on this commanding hill, east of the noise and dust of busy Atlanta, with companionship from Inman and McPherston Parks; elegant roads to drive upon, or steam cars to take you from your cool and shady grove to the very center of the city every few minutes. What is more desirable than this? Where could you have more wisely? The suburbs of this bounding, progressive and great city are being secured by far-seeing people every day, who wisely calculate upon the future. Drive out just beyond John Faith's, on the hill, and examine these lots. Take a plat along and mark your choice before the sale. All the best school roads converge into Welham avenue, dividing the property of Senator Brown from this tract. We propose to sell the lot right upon the crest of the hill—table-land, and literally on top. Terms, one-fourth cash; balance one, two and three years, at 8 per cent.
